Press Release: GCI SchoolAccess Welcomes New Program Manager

Missy Frazé Brings Over Eight Years of Technical and Instructional Technology Experience to Distance Learning Leader

AUGUST 12, 2011, ANCHORAGE - GCI SchoolAccess today announced the appointment of Missy Frazé as program manager. Frazé plans to use her more than eight years of technical and instructional technology experience to support GCI SchoolAccess' customer school districts with their technology needs and advance GCI SchoolAccess' service offerings.

"Throughout my career I have thoroughly enjoyed sharing my knowledge and experience with others and hearing how school districts are implementing technology," Frazé said. "I look forward to not only bringing those experiences to GCI SchoolAccess, but also being able to continually share and learn on a broader basis."

Frazé comes to GCI SchoolAccess from the Anchorage School District where she served in various technical and instructional roles, including teacher, technology coordinator and technology specialist. She has a degree in International Business and has been involved in the Graduate Program on eLearning at the University of Alaska Anchorage. Frazé has also been an adjunct professor at the University of Alaska Community and Technical College.

"GCI SchoolAccess is proud to welcome Missy and looks forward to the benefits our customers will receive from her vast and varied educational technology experience," GCI SchoolAccess Director Pam Lloyd said. "She will bring a new level of professional development for districts and support GCI SchoolAccess in delivering new service offerings."
